Even if the bus cost extra \$\$, it would be worth paying the price. That is, if the schedule were frequent and the pick-up and drop-off were convenient. Maybe there could be pick-up/drop-off/parking places in various suburbs where people could park their cars for cheap and take the bus to airports.

752. Work-It makes no sense for me to drive to the train. I may as well just drive to work. I drive teenagers to school in Addison..It would be nice if they could walk to Army Trail..hop a bus...dismount at Lombard road and walk north!! I grew up in Chicago and rode public transportation everywhere. I was forced at 28 to buy a car because employment took me out of the city.
753. Work--Winfield
754. Would be helpful to others
755. Would not use a bus
756. Would not use a bus
757. Yes! I'd love to go to work on the bus. It would make my life much easier BUT I have to be at my 1st job by 8:30 near Danada I walk a block to my second and don't head home until 6:50 pm. No bus runs north at all let alone at those times.
758. Yes, It is an excellent idea to have a bus that can go to the different communities.
